Portfolio

Professional Summary

Results-driven Computer Science Engineering graduate with strong full stack development experience using MERN stack. Proven track record building scalable, high-performance applications with robust architecture. Strong problem-solving skills with expertise in RESTful APIs, real-time technologies, and responsive web development.

Education

Sagar Institute of Science Technology and Research, Bhopal <i>B.Tech in Computer Science and Engineering - CGPA: 7.53/10</i>	2022 – 2026 <i>Bhopal, Madhya Pradesh</i>
Govt. Excellence Higher Secondary School Sausar (MP) <i>12th Grade - 68.8%</i>	2021 – 2022 <i>Sausar, Madhya Pradesh</i>
Govt. Excellence Higher Secondary School Sausar (MP) <i>10th Grade - 83.0%</i>	2019 – 2020 <i>Sausar, Madhya Pradesh</i>

PROJECTS

Devplex AI AI Website Builder — MERN, GenAI Code Live	2025
- Developed an AI-powered SaaS platform that generates full-stack websites from natural language prompts, reducing development time from hours to minutes - Integrated advanced AI models for code generation, automated testing, and 1-click deployment for seamless website publishing - Implemented secure role-based access, reusable UI components, and lazy loading for optimized performance at scale	
Learnexa AI Learning Platform — MERN, GenAI Code Live	2025
- Built AI-powered platform for competitive exam prep, distraction-free YouTube learning, and AI quiz generation - Developed AI interview simulator with real-time feedback and performance analytics dashboard - Integrated payment gateway and subscription system for premium features	
Medicare Hospital Management System — MERN, WebRTC Code Live	2024
- Developed end-to-end hospital management system with OPD queue optimization, online appointments, and real-time bed tracking - Implemented AI chatbot for symptom analysis and WebRTC video consultations for remote care - Built admin dashboards with live analytics for resource management and patient flow monitoring	

Technical Skills

- Frontend:** HTML5, CSS3, JavaScript, ReactJS, Redux, Tailwind CSS, UI/UX Design
- Backend:** Node.js, Express.js, RESTful APIs, MongoDB, SQL, Database Design
- Tools & Technologies:** Git, GitHub, Payment Gateway Integration, WebRTC, Claude API
- Currently Learning:** Vue.js, System Architecture, MS SQL Server, Scalable Infrastructure

Core Competencies

- Problem Solving
- Adaptability
- Team Collaboration

Achievements & Certifications

- Winner** - National Science Day Project Expo, SISTec-R (Feb 2025) - Innovative payment solution prototype
- Participant** - VITB-JHU Health Hackathon (Feb 2025) - Secure healthcare transaction system
- Competitor** - SISTec Innovation Hackathon (Apr 2024) - Scalable web application with optimized performance
- Competitor** - Sagar Eutopia Web Development Competition (2024) - Responsive UI framework
